

AI Study Helper App

A smart student-focused mobile application that helps users study efficiently using AI-powered tools. The app can summarize notes, generate quizzes, track study sessions, and improve productivity.

Main Features

- Upload Notes and PDFs
- AI-generated summaries
- Automatic quiz/question generation
- Study timer and Pomodoro mode
- Dark mode support
- Topic bookmarking
- Daily study progress tracking
- AI chatbot for doubt solving

Recommended Tech Stack

Component	Technology
Frontend	Flutter or React Native
Backend	Firebase
Database	Firestore / MongoDB
Authentication	Firebase Auth
AI Integration	OpenAI API

Monetization Ideas

- Premium AI tools subscription
- Ad-free version
- Paid study templates
- Cloud backup subscription

Future Scope

The app can later include voice-based AI tutors, multi-language support, collaborative study rooms, and integration with college LMS systems.
